

Know what's on display.
Gain customer insight.
No matter where you are.

InVue InsightSM is an enterprise retail analytics solution that helps provide visibility to in-store activity of your smartphones and tablets on display. With an intelligent, networked POD you

can track planogram compliance, customer interaction and security status — all through a cloud-based portal.

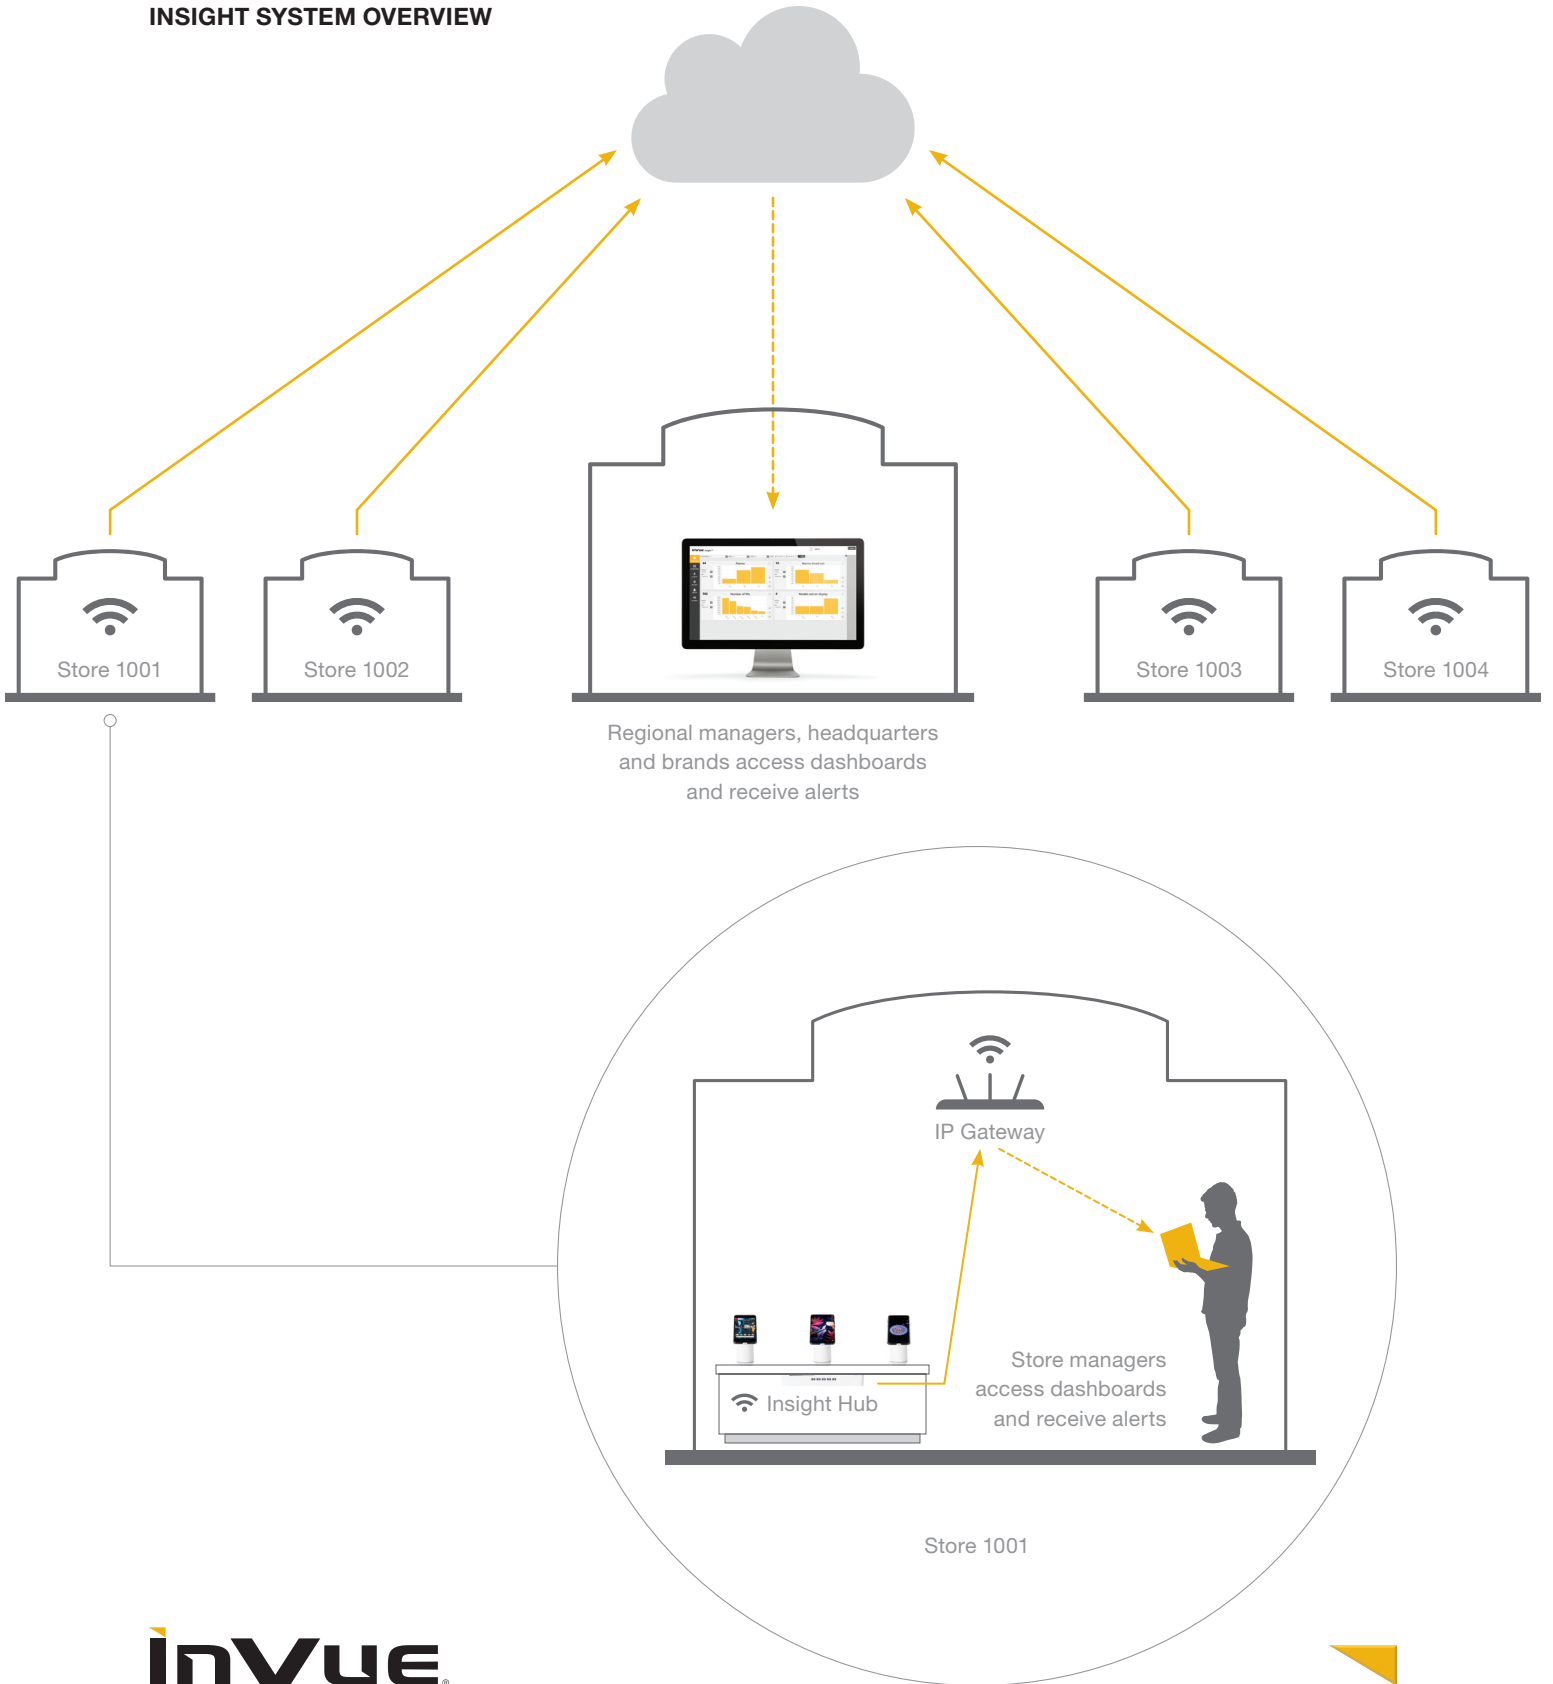

FEATURES AND BENEFITS

- 1 Works with iOS and Android devices
- 2 Connect up to 16 devices using the Insight Hub and an additional 16 when connected to the Insight Expansion Box (Insight Hub shown below)
- 3 Information can be accessed at the device, store, and enterprise levels

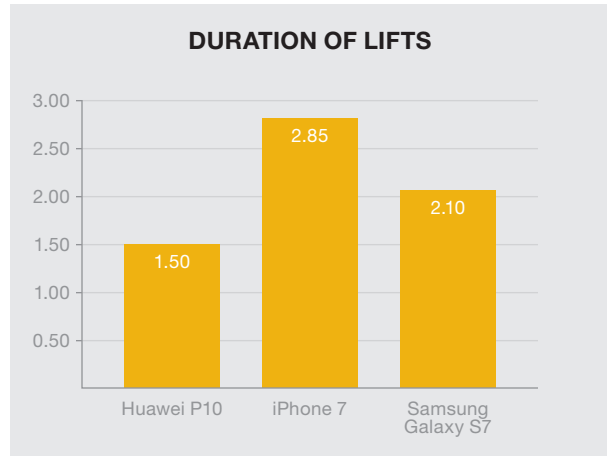

INSIGHT SYSTEM OVERVIEW

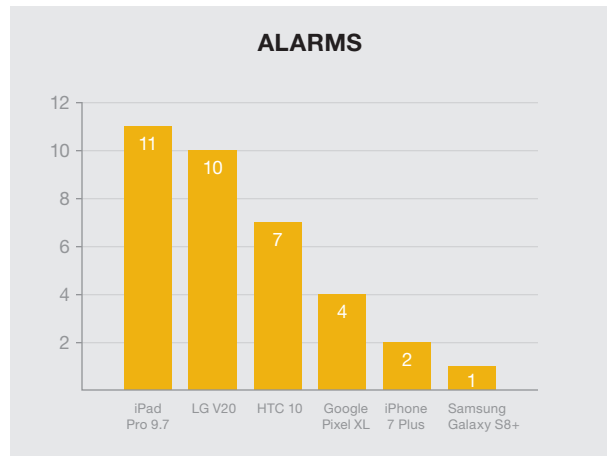

INSIGHT SYSTEM ANALYTICS EXAMPLES

With an intelligent, networked POD we provide the following through a cloud-based portal:

› *Activity:* Lifts and lift duration of merchandise

› *Planogram:* Type of device (e.g., brand and model) on each POD and missing devices

› *Security:* Arm/disarm and alarm events

This information can be easily accessed at the device, store, and enterprise level.
